EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR
 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's representative, Mr. Wayne F. Reinke, on September 23, 2004.

The application has been amended as follows:

In Claim 1, in line 16 (last line) and in Claim 14, in line 14 (last line), the language "a positive outcome of said testing" has been replaced with --a proper operation of said clock and data recovery circuit--.

2. The following is an examiner's statement of reasons for allowance:

Upon further review of the case, prior art, and Applicant's arguments, the Examiner concluded that the prior art did not qualify as a bar under either 35 U.S.C. 102 or 35 U.S.C. 103. Such a determination was reached as a result of a sua sponte review of Applicant's arguments in the Appeal Brief received on June 7, 2004, pages 7-13. More explicitly, prior art of record does not teach or fairly suggest a built-in self test circuit or a method for testing a clock and data recovery circuit, wherein as per claims 1-23, a match between the beginning portion of a recovered test data byte and the frame header of an initial test data indicates a proper operation of the *clock and data recovery circuit*, or wherein as per claims 24-39, an outcome of the testing comprises indicating improper operation of the *clock and data recovery circuit*.

Application/Control Number: 09/745,988

Art Unit: 2136

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emmanuel L. Moise whose telephone number is (703)305-9763. The examiner can normally be reached on M-W (9:30-6:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz R. Sheikh can be reached on (703)305-9648. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
